

It would not serve the public interest of our community to displace K-LOVE with an LPFM broadcasted program. K-LOVE provides radio programming that does not contain any off-color jokes or commentary. The music communicates an uplifting message to its listeners. K-LOVE plays regularly in our home and cars, and we feel comfortable having our children listen to it. It benefits the community by providing a positive station as an alternative to the many stations that broadcast music with disgusting words and conversations filled with sex and foul jokes. Thank you.
